

About this app: -

Track your bus live anytime, anywhere.

Provide real time bus-arrival information bus stoppage near your location and time delays scheduled currently.

A new good way to be assured of bus-arrival. No need to wait for the bus!!

It basically tracks the live location of the bus, we can know where is our bus and when it gonna arrive to our particular location.

Moreover, it provides other passenger advantages or features like:-

- Search bus stop in our location.
- Live updates.
- You can save the location of areas of your interest.
- Gives news like if the bus suffers any defeat or it gonna come late.

So by this we can manage out worktime schedules, management and many more.
